

FARM & RANCH PROJECT LEGAL AID OF NEBRASKA

FARM SUCCESSION WORKSHOPS

Our free 4-hour educational workshops will cover the following:

- Estate and succession planning: tools and considerations
- The use of business entities in farm and ranch succession
- Finance and management issues in succession planning
- Transfer, death and other tax considerations, including portability
- Options, buy-sell agreements, leases, preemptive rights

Joe Hawbaker, an Agricultural Law attorney, will discuss succession tools, use of entities, and taxes. Dave Goeller, retired Extension Farm Transition Specialist, will discuss finance and management issues in the family context.

We intend to provide reliable information that may assist farm and ranch families in forming business succession plans, or in reviewing their existing plans.
